

LEGISLATIVE UPDATE

February 26, 2024

This year, Crossover Day (the last day when a bill can pass its originating chamber, “cross over” to the other chamber, and still have enough time to make it to the governor’s desk) falls on Leap Day (February 29), and such a coincidence brings so much to mind! First, the Disney-like image of little buoyant bills “leaping” across the rotunda from House to Senate and Senate to House is just ridiculous. Nothing travels that easily in the Capitol except lawmakers when a Majority Leader moves to adjourn. Second, the fact that Leap Day is even a *thing* is cool to me because it happens only once every 4 years, and reminds me to purge old condiments from my fridge. (To my family: You’re welcome!!) Plus, I like it that, despite the wonderful and terrifying onward press of the human imagination, which thunk up social media, space travel, and state crustaceans ([HB 1341](#)), we are still following a calendar that Julius Caesar and some dude named “Sosigenes of Alexandria” cooked up. What’s more, I get a deep satisfaction knowing that Leap Day compensates for, and even *celebrates* bad math, throwing a little lagniappe to Measured Time since the Earth does not orbit the Sun in a precise 365 days. As y’all already probably know, I am a big fan of lifetime bonus points generally and wish we could pass them around more often. For instance, I could use a Leap Day every week or two to just hang out with my kids and make [jello-jigglers](#). I could use a Leap-Check to make ends meet, a Leap-Parking-Lot to stop circling the Capitol when the regular lots are full, and a Leap-Latte to help me get to the end of the Senate Judiciary hearings. I would even enjoy an intermittent game of Leap Frog in the South Wing, Floyd Cafeteria or Liberty Plaza, just to see how far the Capitol Contingent can jump after working those calf muscles on marble floors. Actually, scratch that last one. No doubt, the [amphibian lobby](#) would win!

Now, leap around our update to check on bills you dig (or don’t) and to jump those action alerts into action!

See ya in 4 years!

(actually, see ya next week)

~Polly

[SB 63](#) (Robertson-29th) Prohibits a local jurisdiction from creating a bail schedule, or policy, that mandates releasing a person from jail on unsecured judicial release. It also modifies the definition of "bail" in the code section. The bill modifies the list of crimes under "bail restricted offenses" to include various crimes, including misdemeanors and second or subsequent violations of certain crimes. No person is eligible to be released on unsecured judicial release if they were charged with a bail-restricted offense. Those individuals are only eligible for release through the use of secured means, professional bondsmen, and approved property. Any person arrested for any offense who has previously been convicted of a felony within the past seven years is not eligible for an unsecured judicial release. The bill removes the exemption for those who were deported from the country by the federal government, meaning that a judgment can be made by a court on a forfeiture of an appearance bond if the person at issue was deported and could not attend court for that reason. A surety is now released from liability if, prior to a judgment, the person at issue participates in an accountability court or enters into a pretrial release program. The bill increases the amount that bail recovery agents can charge for continuing legal education programs, the timeline for when sureties are relieved from liability due to a failure to timely file a bench warrant and forfeiture of bond, and the amount of remission of a bond to be paid to the surety.

HB 30 (Carson-46th) Provides a definition of antisemitism for purposes of state government, using the advisory definition of antisemitism adopted by the International Holocaust Remembrance Alliance (IHRA) on May 26, 2016. IHRA defines antisemitism as a certain perception of Jews, which may be expressed as hatred toward Jews, and includes rhetorical and physical manifestations of antisemitism directed toward Jewish or non-Jewish individuals and/or their property, toward Jewish community institutions, and religious facilities. An agency that enforces any criminal or noncriminal law or regulation that prohibits discrimination will consider the definition of antisemitism during that enforcement. Nothing in the bill will be construed to infringe upon First Amendment rights or an individual's right to engage in legally protected conduct or activity pertaining to U.S. foreign policy or international affairs.

STATUS: SIGNED INTO LAW 1/31/24

The minor must be covered by an insurance plan for accident or sickness, or a workers' compensation plan. The bill preempts localities from requiring issuance of an employment certificate or a youth work permit as a condition of payment or requiring an employer to obtain an employment certificate from a minor. If a spouse is not issued a license by endorsement within 30 days of filing the application, then he or she can continue to work for the in-state employer without being licensed. [Ask #1: Expansion of Temporary Assistance for Needy Families \(TANF\)](#)

[The Ask](#)

Contact members of the House Rules Committee and ask them to put House Bill 565 on the House Floor for a vote.

[What Does HB 565 Do?](#)

[House Bill 565](#) updates Georgia's Temporary Assistance for Needy Families (TANF) law so it can better support families' – and LOTS of childrens'! – overall well-being. This is what the bill does:

- Expands family's access to TANF by extending the lifetime maximum time that a family can receive assistance from 48 months (4 years) to 60 months (5 years).
- Increases the monthly benefit amount to 30% of the federal poverty guidelines, effective July 1, 2024.
- Increases the resource limit of an applicant to \$5,000, excluding the value of a vehicle if it is used for activities related to work, training, or education. (If there is an additional vehicle not used for these purposes, a \$4,650 exclusion is applied.)

[Why It Matters](#)

- TANF is a cash support program, with an employment component, for families with very low incomes.
- The Georgia TANF program is designed to help needy families achieve self-sufficiency. States receive grants to design and operate programs that accomplish one of the purposes of the TANF program.
- To be eligible for Georgia TANF, you must be a resident of Georgia, and a U.S. citizen, legal alien, or qualified alien. You must be unemployed or underemployed and have low or very low income.
- You must also be one of the following:
 - Have a child 18 years of age or younger, or

- Be pregnant, or
- Be 18 years of age or younger AND the head of the household.

What to Say

Dear Representative,

Please vote in House Rules Committee to put House Bill 565 on the House floor for a vote as soon as possible – before Crossover Day. This bill updates Georgia’s Temporary Assistance for Needy Families (TANF) law so that it can better support families and LOTS of children! This bill adjusts for inflation and also excludes the value of a vehicle if it is used for activities related to work, training, or education. This is important because TANF is designed to help families with low incomes achieve self-sufficiency and is *temporary*. Thank you for all you do daily for Georgia’s children and for your thoughtful consideration with regards to House Bill 565.

Ask #2: Out-of-School Time Funds and Liaison

The Ask

Ask members of the House Appropriations Education Subcommittee to:

1. Fund afterschool and summer enrichment programs by re-upping the Georgia Dept. of Education’s BOOST grant funding in the FY25 budget (suggested funding \$20 million a year); and,
2. Create an Out-of-School Time liaison position, preferably in the GaDOE to coordinate OST policy across the three state agencies that handle OST programs: GaDOE, Dept. of Human Services, and Dept. of Early Care and Learning.

What’s BOOST?

For the last three years, GaDOE, in partnership with GSAN, used a total of \$85 Million in COVID relief funding to create the Building Opportunities in Out-of-School Time (BOOST) grant program, which has funded evidence-based afterschool and summer learning programs. The federal funds for the program are about to expire, but the BOOST outcomes for kids have been

amazing! Therefore, in order to keep the progress for kids going, Georgia needs to target dollars into more grants, which we are calling “BOOST 2.0”.

[The Why](#)

The [BOOST 2.0 Grant Program](#), (housed at the Georgia Department of Education) will build off the existing infrastructure and partnerships of BOOST. This will:

- Create a statewide framework that expands access to and assures quality of afterschool and summer learning opportunities.
- Prioritize funding support to OST programs that serve vulnerable youth, such as those who are economically disadvantaged, have a disability, and English language learners.
- Use existing state infrastructure to provide training and technical assistance to OST providers fiscal administration, quality measurement, program effectiveness, and provider leadership.
- Leverage program evaluation and evidence collection strategies embedded within the BOOST grant to determine how to best serve current and prospective afterschool and summer learning providers in the future.

An [Interagency Liaison](#) can coordinate afterschool and summer programming between the Georgia DECAL, DHS/DFCS, and GaDOE. If such a liaison is placed in Georgia Department of Education (Office of Whole Child Supports), efficiencies and communications can be maximized in

- Alignment and coordination of OST services provided to youth and families;
- Development of reliable protocols for interagency communication regarding implementation of similar youth enrichment programs;
- Streamlining of grant application and administration to help both large and small organizations; and
- Streamlining of training, technical assistance, and professional learning provided to organizations funded and/or licensed by the agencies.

[For more on OST Funding and Programs in GA, check out our Brief!](#)

[The Message:](#)

Dear Representative _____,

I have two requests related to afterschool and summer enrichment funding. First, please include money in the FY25 budget to continue the afterschool and summer enrichment funding known as BOOST (Building Opportunities in Out-of-School Time) grants. Also, please include funding for an interagency out-of-school-time liaison at the GaDOE to coordinate the OST policies across the three state agencies that house programs and dollars related to out-of-school time programming (GaDOE, DHS, and DECAL). The federal COVID relief dollars that created BOOST are running out and BOOST has been key to student success in academic recovery, mental health, and child wellbeing. These programs are **crucial in helping working parents work without concerns about the safety and nurturing of their school-aged children**. PLUS, afterschool and summer enrichment activities **improve literacy and learning, youth mental health and behaviors, and vital career-ready skills**.

Thank you for your consideration of these requests and thank you for all you do every day on behalf of Georgia’s children and families.

Ask #3: School-Based Mental Health**The Ask**

Ask members of the House Appropriations Human Resources Subcommittee to fund the Georgia Apex Program at \$10 Million in the FY 2025 Budget (under the Dept. of Behavioral Health and Developmental Disabilities).

What is Apex?

The successful Georgia Apex Program (Apex), funded by the Georgia Department of Behavioral Health and Developmental Disabilities (DBHDD), builds capacity and increases access to mental health services for school-aged youth, Pre-Kindergarten to 12th grade, throughout the state.

- Apex works as a satellite to existing providers (such as the local community service board), and takes traditional public and private insurance to cover costs, but still needs funds to start programs in new schools.
- Since its inception in 2015, the Georgia Apex Program has grown on average 19% per year in engaged schools and 40% in services provided. Yet over 66% of children in Georgia who have had a major depressive episode have not received mental health care.

To understand child and adolescent behavioral health needs, check out these additional factsheets:

- [School Based Mental Health Programs](#)
- [Crisis in Child and Adolescent Behavioral Health](#)

The Message:

Dear Representative _____,

Please appropriate \$10 Million to expand school based mental health, namely the Georgia Apex Program, to more schools so that we can start to serve the estimated 66% of children in Georgia who have had a major depressive episode have not received mental health care. Georgia Apex Program provides school-based access to mental health services for children Pre-K through 12th grade across the state. Last year alone, the program served more than 730 schools. The program, however, is in high demand. While Apex services are billed through public and private health insurance, start-up funds are needed to expand the program further to meet the demand. Thank you for your attention to this situation and for your service to the children and families of our great state.
